

FY26 Initial Allocation Worksheet: Benjamin Banneker HS

Budget Updates for FY26

DC Public Schools (DCPS) Fiscal Year 2026 school budget allocations prioritize classroom teachers, ensuring that funding for teaching and learning is paramount in a tight financial landscape. School budget worksheets reflect projected student enrollment and factor required teacher-to-student ratios across the district.

As you review your school's allocation, please note the following:

- A School Sustainability Fund has been established to ensure schools can afford the appropriate number of classroom teachers.
- DCPS is working to optimize class sizes districtwide while recognizing each school's unique needs.
- This year's budget accounts for inflationary pressures and increased labor costs, which impact buying power year over year.
- While principals maintain autonomy over certain budget decisions (flexible funds), parameters are outlined further in the worksheet to ensure adequate staffing remains in alignment with enrollment and teacher-to-student ratios.

School budget worksheets provide a starting point for your school's budget planning process; difficult choices and tradeoffs may be required to balance priorities within available resources.

Year-Over-Year Budget Notes

Banneker's FY26 initial formula allocation is \$9,610,246. This includes \$181,053 in School Sustainability funding. The FY26 initial allocation is an increase of \$311,649 compared to the FY25 final approved budget. For more information, please see the "YOY Changes by Allocation Type Table."

Key factors and inputs that impact YOY changes:

Underlying all school budgets are key budget drivers including student enrollment changes and position cost increases. In SY25-26 (FY26), teacher costs are increasing by 3.7%. In FY26, the per student base weight did not change from FY25 and remains at \$7,180. For SY25-26 (FY26), the school's projected enrollment is 733, an increase of 30 students. Banneker is also projected to increase in students with IEPs by 1 students and is projected to increase in the number of multilingual students by 1 students. This change in projected enrollment at the whole school level and across sub-groups leads to an increase in the student-based funding, including targeted weights. The "YOY Changes by Allocation Type table has additional year over year details based on the four ways the DCPS funding model allocates funds.

High School Budget Model Allocation

The table below provides a detailed accounting of the resources initially allocated to this school.

Levels of Flexibility Key

Non Flexible (NF1): These allocations are unable to be changed. This may be determined by fund source requirements and allowability, such as grants and Memorandums of Understanding (MOUs), legal requirements, and other core operational considerations.

Non Flexible (NF2): Any shift in the allocation will maintain the intended purpose of the original allocation. Principals must demonstrate how they will meet related programmatic requirements.

Flexible (F): These allocations are provided to schools to budget for staff and programming.
