## Year-To-Year Budget Notes

This submitted budget worksheet reflects how Hart Middle School's principal and school community aligned and tailored their FY26 (SY25-26) allocation to meet the needs of their student population.

Hart's FY26 submitted budget is \$9,413,933 in total school resources. This is an increase of \$287,697 compared to Hart's FY26 initial allocation. During budget development, Hart received \$287,697 in budget assistance for additional resources. Compared to their FY25 (SY24-25) approved budget, Hart's submitted budget total is an increase of \$538,414. The FY25 approved budget includes supplemental funds, including any funds awarded by DC Council.

School budgets are primarily driven by projected enrollment, specific student needs, school programming, position costs, and community input. As noted in the SY25-26 (FY26) initial allocation worksheet, the school's projected enrollment is 375, an increase of 19 students. Hart is also projected to increase in students with IEPs by 15 students and is not projected to change in enrollment of multilingual students. Hart is also projected to increase in at-risk students by 18.

## Per-Pupil Funding and Enrollment Changes Year-Over-Year

	FY25	FY26
Per-pupil Budget Amount	\$24,931	\$25,104
Projected Enrollment	356	375

DCPS operated funds, at the school- and central-level, are coded under agency code GA0. Non-local funds for school resources, like Title funding such as Title I, Title II, and Title IV-B are coded as GD0 because they are ultimately loaded onto OSSE's budget and not DCPS's. This budget worksheet includes school budgeted items funded under both GA0 (DCPS) and GD0 (OSSE); however, in the Mayor's budget book as found on [cfo.dc.gov](http://cfo.dc.gov), school profiles separate school budgeted items under GA0 and GD0 into different sections.

## FY26 Administrative Add-Ons

In addition to salary and benefits, DCPS adds the projected cost of certain expenses related to each union and/or position to average position costs as a per position (FTE) administrative add-on cost. These additional costs are called “administrative add-ons.” For example, each teacher receives a \$250 teacher supply card to purchase classroom supplies as part of the WTU contract. In FY26, this \$250 is added on top of the salary and benefits of every WTU position that is budgeted to pay for the procurement of supply cards.

For each administrative add-on, DCPS calculates a per-unit-on cost prior to initial budget allocations using a projected number of FTEs budgeted for the upcoming school year. Once school budgets are finalized, an accurate FTE count allows for the centrally managed personnel administrative add-ons schoolwide budget to be finalized and submitted to OCFO as part of the agency budget submission. The total “add on” cost will vary based on position types since the expenses that they pay for can vary by position types. The total “add on” budget is centrally managed.

Below is a breakdown of this school's contribution towards the schoolwide budget. While the per unit add-on cost helps calculate a schools' contribution to schoolwide, DCPS shifts funds, as needed, to accommodate actual budgeted staff costs across all schools. For example, some administrative add-ons like teacher supply cards vary directly with the number of WTU members, while others like DCPS' Employee Assistance Service contract have a set rate. In FY26, there were more FTEs budgeted than projected overall, but some unions had fewer budgeted FTEs than projected. As a result, there is slight variation between the calculated cost breakdown for specific line items in schoolwide budget and the actual submitted schoolwide budget that is managed centrally as administrative add-on funds shifted across categories.
