

# FY27 Initial Allocation Worksheet: Coolidge HS

## Budget Updates for FY27

DC Public Schools (DCPS) Fiscal Year 2027 school budget allocations prioritize classroom teachers, ensuring that funding for teaching and learning is paramount in a tight financial landscape. School budget worksheets reflect projected student enrollment and factor required teacher-to-student ratios across the district.

As you review your school's allocation, please note the following:

- The school sustainability fund ensures schools can afford the appropriate number of classroom teachers.
- DCPS is working to optimize class sizes districtwide while recognizing each school's unique needs.
- This year's budget accounts for inflationary pressures and increased labor costs, which impact buying power year over year.
- While principals maintain autonomy over certain budget decisions (flexible funds), parameters are outlined further in the worksheet to ensure adequate staffing remains in alignment with enrollment and teacher-to-student ratios.

School budget worksheets provide a starting point for your school's budget planning process; difficult choices and trade-offs may be required to balance priorities within available resources.

## Year-Over-Year Budget Notes

Coolidge's FY27 initial formula allocation is \$24,727,856. The FY27 initial allocation is an increase of \$871,365 compared to the FY26 final approved budget. For more information, please see the "YOY Changes by Allocation Type Table."

\*DCPS is phasing out budgeting centrally managed items as part of the school allocation. Starting in Fiscal Year 2027 (FY27), Schools will budget the "School Allocation," and the average position cost will no longer include administrative add-ons.

The centrally managed value for FY27 shown to the left is an estimation based on programming and projected personnel expected to be budgeted. For comparison purposes, the budget change reflects the change in the FY27 school allocation and FY26 approved budget. All references to administrative add-ons will be removed in FY28 worksheets.

## Key factors and inputs that impact YOY changes:

Underlying all school budgets are key budget drivers including student enrollment changes and position cost increases. The average teacher cost is higher in SY26-27 than in FY26. School allocations have been adjusted accordingly to factor in the change in overall position cost. The School Sustainability Fund allows schools to afford the same positions as SY25-26 adjusted for shifts in enrollment. For SY26-27 (FY27), the school's projected enrollment is 974, a decrease of 26 students. Coolidge is also projected to increase in students with IEPs by 23 students and is projected to decrease in the number of multilingual students by 39 students. This change in projected enrollment at the whole school level and across sub-groups leads to a decrease in the student-based funding, including targeted weights. The "YOY Changes by Allocation Type" table has additional year over year details based on the four ways the DCPS funding model allocates funds.

## Enrollment Overview

## High School Budget Model Allocation

The table below provides a detailed accounting of the resources initially allocated to this school.

### Levels of Flexibility Key

**Non Flexible (NF1):** These allocations are unable to be changed. This may be determined by fund source requirements and allowability, such as grants and Memorandums of Understanding (MOUs), legal requirements, and other core operational considerations.

**Non Flexible (NF2):** Any shift in the allocation will maintain the intended purpose of the original allocation. Principals must demonstrate how they will meet related programmatic requirements.

**Flexible (F):** These allocations are provided to schools to budget for staff and programming.
